Disaster Preparedness: Will You Be Ready? - Bob Lorenz, American Red Cross As the world changes, so do the threats we face and how we react to them. Disasters require complex reactions exceeding what we can accomplish on our own. See the types of disasters we may face and how individuals, communities and businesses can prepare to survive and recover.

"Stop the Bleed" Campaign: Building Resiliency in our Communities - Carol Jones, HVMC Trauma Services Life-threatening bleeding warrants immediate intervention, and anyone can learn to save a life when minutes count. The national 'Stop the Bleed' campaign aims to teach those basic skills.

Off Road Vehicle / ATV Safety - Keep the Fun in Your Adventure - Chris Seay, TWRA With a growing trend in off-road activities, this session will present basic safety measures that will enhance safe operations of off road vehicles.

It Really Does Take Everyone To Prevent Substance Abuse- Alice McCaffrey / Melony Ison, Sullivan County Anti-Drug Coalition What are your odds of dying from a substance misuse problem? What is being done and how can you be part of the solution? Information campaigns and prevention efforts can help turn this issue around.

Internet Safety: Protecting Your Child From Online Predators - Bianca Pearson, FBI Hear an overview of devices and applications children use to access the internet, how to secure those devices, and how to educate children about the online threat. A brief case presentation on sextortion will be given, highlighting the threat kids face every day in our community.

"Can You Come Back In A Minute, Officer? This Call Is Really Important." Homer Stillwell - Accident Avoidance Workshops THERE IS something MORE distracting than cell phone use ... do you know what it is?

House of Worship/Church Safety and Security: Ministry Minded and Volunteer Based - Major Joey Strickler, SCSO Remember a time when we could leave our churches unlocked and never worry about theft or vandalism? Who would have imagined someone entering our churches with a weapon planning to massacre a body of believers? Unfortunately, locks, cameras, security teams and preventive plans are as common place as Vacation Bible School, Sunday School and Choir Specials. This class will address many of the issues we face today.

Fall Protection - The New Fixed Ladder Standard and Updates on Leading Edge and Personal Rescue - Fritz Christ, MSA Learn about the new OSHA standard pertaining to fixed ladders and how it might impact your business along with solutions. Additionally we will review what you need to know about Leading Edge and Personal Rescue.

2018 Overview of Domestic and International Terrorism - Brian O'Hare, FBI With a perceived increase in threats and violence, learn to better recognize the presence of various types of terrorism activity. Hear an overview in the modern contexts to include 2018 events related to international and homeland events.

TOSHA - Review of Recent Activities and Changes - Steve Hawkins, TOSHA Administrator Mr. Hawkins will provide information on recent safety-related activities in the State of Tennessee. He will also speak to the status of forthcoming changes in regulations, standards and procedures that could affect your workplace safety programs.

Mental Health First Aid: YOU Can Be Part of the Solution - Kay Garrett, HVMC Trauma Services With the increased visibility of the effects of mental illness, it's time to review what is / isn't being done about mental health in our community and what progress has been made in providing alternatives such as mental health first aid.

Traffic Crashes: Causes, Effects, and Investigations - Matt McGuire / Aaron Grimes, Kingsport Police Traffic Division Hear discussions from subject matter experts on common causes of accidents and proposed counter- measures to avoid becoming involved in a collision.

"Hi, I'm Stress! I'm Moving In!" Meet, Greet and Manage Your Stress Style - LaDonna Carey, MA SPE Stress doesn't want to go away, so learn how to just visit without letting it move in! Get to know your personal *Stress Style* and learn day-to-day coping strategies to help improve your physical and mental health.

In It, Under It, On It: Is 911 Really The Best Answer For Confined Space Rescue? - Walter Idol, UT Center for Industrial Services We will discuss OSHA's requirements for

Confined Space Rescue and how to decide if your organization should consider it own confined space rescue capability.

What Can Employees' Hearing Loss And A Poor Hearing Conservation Program Cost? - Dr. Daniel R. Schumaier, Audiology and Associates Providing a safe work environment includes providing protection from noise. Assessing, monitoring and providing the appropriate level of protection is required, so being proactive is the right choice.

How NOT To Cause A Catastrophe - Bob Nelms, President, Failsafe Network, Inc. An interactive product demonstration of how we can learn a lot about ourselves from the small problems in our lives instead of waiting to be part of the cause of a catastrophe. Receive free access to a video-based product that will help you meet this objective.

Audience Participation: We All Want A Learning Organization, But Are YOU A Learning Person? - Bob Nelms, President, Failsafe Network, Inc. After introductory comments, this session will use group approach to answer questions, scribe answers and reach consensus on how to increase personal and organization learning capabilities.

The Blame Virus and Its Antidote - Bob Nelms, President, Failsafe Network, Inc. The human tendency to blame others/things for the events that go wrong is near the root of everything that goes wrong. There is an antidote to the blame virus. When things go wrong and we try to change equipment, processes, and systems we are focusing on the wrong things. Learn why "when people change, everything else changes."

Profound Learning -Bob Nelms, President, Failsafe Network, Inc. This presentation will discuss the three essential elements of personal change: being confronted with evidence, being disillusioned, and then being willing to introspect.

What Is Latent Cause Analysis? - Bob Nelms, President, Failsafe Network, Inc. This session provides an overview of a learning process that aims at assuring the right people change something about themselves as a result of something that has gone wrong.

Workers Compensation: What You Need to Know Before You Need It - Tina Henley, TN Bureau of Workers' Compensation, Kingsport Office There are proactive measures being implemented that may surprise you. Hear practical advice for handling workplace injuries with useful information for employees/employers in navigating the WC system. Learn practical ideas to help save money, prevent disputes and make the process fair for both parties.

Put Me In Coach! - Al Gourley, Eastman Chemical Company Have you been told to "*coach*" someone at work but was never given training for that role? Hear how *coaching* differs from *managing*, *mentoring* and *consulting* regarding safe behaviors. Learn effective coaching tools that you can utilize on the job right away.

"Storm Chasers" - The Mini-Series - Ricky Matthews, WCYB When it comes to severe weather, hear what we look for up to 7 days out, all the way down to what we look for on the day of, examine intricacies of watch vs warning, etc. Learn about disaster recovery and how tornado damage is ranked on the Enhanced Fujita scale.

TOSHA Review of 2017 Tennessee Fatalities - John Pietuszka, TOSHA We will review the number of fatalities experienced throughout the State of Tennessee during the past year and discuss how we can implement protective measures to prevent reoccurrences.

Hold My Matches and Watch This! - Shane Jenkins / Brian Ramsey, The Damascus Group This fast paced presentation takes a dynamic look at the physical and chemical properties of flammable and combustible solids, liquids and gasses. Witness flash point, vapor density, vapor pressure, flammable range and much more.

Terrorism, The Explosive Device and You - We're Not In Mayberry Anymore! Shane Jenkins / Brian Ramsey, The Damascus Group This awareness level course is designed to communicate the current threat from Terrorism, an understanding of the different types of Explosive Devices, and precautions to take if confronted with either! Just when you think you have it figured out the challenges change. Our adversaries never stop inventing ways to harm us, so we must remain vigilant.
